

## **Educational Psychology Consultations 2017/18**

*Bookable sessions for parents/carers, school staff and other professionals to explore issues in a supportive environment with Educational Psychologists (EPs).*

*Joint problem-solving for even better outcomes.*

Consultations are arranged in local venues and are available to discuss issues or concerns. This in turn supports staff and/or parents/carers to be better enabled to meet the needs of children and young people.

To make the most of the EP Consultation, school or setting staff and parents are encouraged to attend together.
