

## Space Homework Year 2

Next week, we will be starting a thematic unit of learning on 'Space'. We will be doing lots of exciting activities linked to our topic.

We would like you to select two activities from the menu below and create something to take in to school to show us what you have learnt. If you can't take it into school, please take in a photo to show us.

Please have homework back on Monday 26<sup>th</sup>/Tuesday 27<sup>th</sup> June.

This learning should be inspiring, creative and most importantly fun.

- Create a space board game for you and your family to play.
- Bake a space themed cake/cupcake.
- Space crafts- anything you like!
- Research information using books/internet to create a space fact file (remember to be careful when using the internet).
- Learn about famous space explorers.
- Find out about the job of an astronaut/space travel.
- Did you know the moon has phases? Research to find out more.
- Learn about constellations.
