

## Minutes from Eco School Meeting - 14/6/18

Present:

Peter and Genevieve (Class 6), Ernest and Charlotte (Class 5), Amelie and Henry (Class 4), Lizzie and William (Class 3), William and Cassie (Class 2), Lucas and Eleanor (Class 1) and Mrs Tennant.

1. We talked about the Sustainable St Albans week and the children said that their classes had all enjoyed making the 'Garbage Gobbler' monsters. The assembly which was led by the Eco Team and Caroline from Sustainable St Albans went very well.
2. We talked about 'Clean Air Day' which is on 21<sup>st</sup> June. The aim of this day is to reduce pollution from transport so we thought it would be a good idea to have our 'Walk to School Week' next week. Children will get a sticker to put on a class chart each time they make an active journey to school. The Eco Team thought that we should give a certificate to each class that fills their chart and a reward. In the past we have had extra playtime as a reward.
3. Mrs Dempsey is going to arrange for an assembly for children about the 'Clean Air Day'.
4. Mrs Dempsey asked the Eco Team to help to gather some information to create a travel plan for our school as we want to encourage more people to be healthy and safe by walking to school. The children counted how many car park, bike and scooter spaces we currently have at school and filled in these details on the travel survey. We still need to gather information about buses that stop on Camp Road and at the station. The children thought that we could do this by looking on the internet or by going to look at the bus stops. We thought that some of the children could walk to the station with adults from school to see how long it takes to get there and to find out information about bus routes. We hope to organise to do this next week if possible.
