

Dear Parents and Carers,

We are interested to know what types of ICT (Information Communication Technology) your child uses. We have lots of different types of ICT available in class (iPads, computers, programmable robots, remote control toys). We will use this information to help us to plan future activities and purchases. Please tell us a little bit about what your child uses at home/outside of the school but don't worry if you don't have any/all of the items listed.

Does your child use a home computer? What do they use it for?

Do they like to use the internet (at home or at the library)? If so, which websites do they enjoy looking at?

Does your child use a mobile phone/tablet to play on apps or games? What do they like to use?

Does your child play games on any games consoles? (For example a wii, xbox)

Can they take photographs or videos using a camera or tablet?

Do they have any programmable toys? (For example a remote control car)

Can they use technology for a specific purpose? (For example drawing a picture, making a toy move, watching a programme, sending a message)

Are there any other forms of technology that your child uses that you would like to tell us about?

It would be lovely to hear about how your child uses technology! We look forward to hearing from you! All your questionnaires will be shredded once we have looked at them.

Many Thanks,  
Reception Staff
