13 May 2019

Dear Parent and Carers

Our topic of 'Green' this half term allows us to focus on how we can help the environment by living 'green' and how the school can be eco-friendly.

It started with our Green Day at the beginning of the term which allowed the children to play their part in a non-electricity day as well as take part in activities such as gardening and scavenger hunts.

The weekend just gone marks the beginning of the 'St Albans Sustainability Festival'. The festival is running from 11th May to 1st June. Our recycled art competition was in aid of this important festival. There is a booklet of the events running during this time in the school entrance or please visit the website to see the child-friendly activities you can participate in. On Sunday 19th May there is a St Albans Market take over where lots of stalls will be showcasing how to be green!

Our half term 'Green' learning will culminate next week with Walk to School week. There will be a chart in each classroom where the children will place a sticker when they have completed an active journey to school in a hope to complete Buster's 'Journey around Hertfordshire'. Please help the children complete this by participating in active journeys whenever possible.

On Tuesday 21st May it is 'Happy Shoesday' when children can wear their most fabulous shoes to walk to school in. There will be a walking bus running from Morrisons along the Alban Way, leaving at 8:30 on this day to gain an extra sticker for a 'Park and Stride'.

Thank you for contributions to our Green topic this half term, whether volunteering at Green Day or allowing your children to make the most amazing models for the Sustainability Festival!

Yours sincerely,

Miss Ketley
